Latin America and the Caribbean along with CAF at the 77th General Assembly of the United Nations

On the occasion of our 10 years as a Permanent Observer at the United Nations, we will raise the voice of Latin America and the Caribbean to strengthen the role of the region as a key actor in the discussion of the main challenges and opportunities in the most important multilateral encounter in the world.

Within the framework of the 77th General Assembly of the United Nations, we present a space of reflection with global leaders, heads of state and high-level personalities to contribute with experiences and solutions of global scope to the challenges facing our region on key issues such as climate action, biodiversity, energy transition, cities, gender, inclusion, diversity, among others.

On 19th and 20th September of 2022, we will discuss the challenges and solutions that will allow Latin America and the Caribbean to advance in the achievement of the sustainable development objectives and goals of the 2030 Agenda.
