Likewise, the Supplier allows the communication by transfer or by order of treatment of the personal data held by CAF to: i) third parties to which CAF is obliged to transmit information, such as public authorities, in order to comply with the requirements of said authorities and applicable regulations; ii) other group companies and strategic partners at a national and international level that provide support in the contracting process and accounting management.

The personal data will be processed from the supplier's registry and once there is no interest of the parties in keeping the information current, the personal data will be eliminated in accordance with the provisions of CAF's internal regulations, which are aligned with the regulations in personal data protection of member countries (including the General Data Protection Regulation 2016/679). However, in the event that there is a judicial process or procedure in progress in relation to the Supplier, the data may be kept for the additional time necessary, until a firm resolution is obtained. Once said period is over, the data provided by the Provider will be deleted.

The Supplier undertakes to notify CAF immediately regarding any request for the exercise of rights made by the owner of personal data. CAF will make the necessary coordination with the Supplier, if applicable, and the Supplier will provide the necessary support to attend to the request of the personal data holder.

I know that I have the rights to know, update and rectify the personal data that has been collected about me, as well as submit queries and claims; revoke the authorization or request the deletion of the data, in the cases in which it is appropriate through the email privacidad@caf.com.
